What's been happening in class:

Year 1 & 2

1/2R have had an amazing week, full of fun and giggles!

We have been editing and revising our work in writing, learning lots of new wonderful vocabulary in our reading and working super-duper hard in our maths, Year 2 have been counting in 3's which has been really tricky but lots of fun! We really enjoyed learning about how to stay safe during online safety week, we know who to trust and who we can go to if we're unsure about anything online. We've been learning about offspring and their adults in science and Miss Rance has been picking up some great cake tips from the parents and the children!

I would like to take this opportunity to thank all the children in KS1 for working so hard this term, you have shown confidence, resilience and have brought so much joy. Have a great break and stay safe.

Year 1 and 1/2O have been incredible this week! They log on morning and afternoon with a smile on their face and are ready for the live learning sessions. In year 1 we have been super mathematicians learning about all things number! They have shocked me with some of their amazing problem solving and have shown great resilience throughout all of our lessons! In writing this week we have produced some outstanding work writing our final outcome using lots of expanded noun phrases, conjunctions and not forgetting our capital letters! 1/2O have loved our afternoon sessions, singing, moving and learning about all the different baby animals there are! Everyone who has been involved with Year 1 and 1/2O both in school and at home, thank you so

Caterpillars

I can't believe we are already at the end of the term it has gone so quickly and what a term it has

been, you have all been absolutely amazing I am so proud of you all and how hard you have worked. This week our learning of Lost and Found has come to an end and we have created our own lost posters for the penguin as well as talked about how both the boy and the penguin have been feeling and have turned these into sentences. This week in maths we have also been learning a new number, the number 15 and have been able to tell each other different ways of making the number 15 using numicon.

much for all your support and hard work this term with live learning. I look forward to 'shaking our sillies you' next term. Take Care, Miss O'Kane

Year 3 & 4 continued

What a term it has been! A huge well-done to **3/4P** (and all the other children at school and families!) for powering on through our online learning! I think we have acquired a new set of skills when it comes to using devices, TEAMS and typing! I have been so impressed with 3/4P – I cannot thank them enough for their effort, patience, willingness and BIG SMILES! I am so proud of you all! Not forgetting their family members who have been on the journey too! This week, we have been writing persuasive letters for a new piece of play equipment in a park! Just a few examples are, sand pits, zip lines/wires, teddy swings, fireman's pole and pyramid rope frames! We have been trying to include hyperbole, short & long sentences, connective, imperative verbs and rhetorical questions to aid our persuasion! We have learned all about the written method for addition, making sure we understand why we regroup (sometimes called 'carry.') In our afternoons, we evaluated our RE learning, written a recipe for success in PSHE and not forgetting Safer Internet Day activities and posters. Another great week! Well done, 3/4P!

This week **34S** have been investigating "Fake News" as part of Safer Internet Day, learning how to make safe decisions online to help us all stay safe and enjoy the World Wide Web. We have been looking at different features in a persuasive letter as we draw to the end of our time with "Black Dog," and move onto our new class book "Leon and the Place Between." Magic was in the air as we followed Leon into the towering circus tent, and discovered that not everything was as it seemed... We used Google Earth to take a quick stop off at some of the sites that London and Madrid had to offer in Geography, and created maps using features from the Ordnance Survey series. We have also been answering lots of questions on our new class tool Spiral.

Well done **3/4A** on another fab week of learning. You have all written amazing letters of persuasion this week and even I'm tempted to start building a park! You've really embraced the challenge of using persuasive techniques and more importantly are confident in using them – so well done! You have all absolutely smashed the written addition challenges this week too and have been using regrouping and column method beautifully. We have also been busy making maps of the village the Hope family live in and using universal map symbols on these. You've all worked really hard this term, I can't believe that we have done 6 weeks of online learning already! Have a fab half term and a well-deserved break 😊

Year 5

5K have had an awesome end this term. We have been exploring Non-chronological reports and finished the week by writing some fabulous reports about Skellig. It is sad to say we won't be working with that text anymore. We have been introduced to our new text 'The Viewer' where we have been exploring the theme of temptation and thinking about other texts which have similar themes. We have been exploring reflection of shapes on a quadrant and shown amazing amounts of perseverance when drawing shapes online. We enjoyed Safer Internet day on Tuesday and created animations to help advise others about how to keep our personal information safe and more importantly how to behave online. Thank you 5K for a superb term, see you in Term 4!

Year 6

A huge well done to **Year 6** for all of their hard work, resilience and commitment to their live learning this term, I have been blown away by the adaptability and engagement from you all. I hope that you all enjoy a well-earned break and look forward to seeing you next half-term!

Reminders

It has been lovely seeing all of your Outdoor Learning pictures, please make sure to keep sending them into reception@themanor.wilts.sch.uk

Safeguarding & Online Safety Tips

5 top tips for talking to you children about what they do online

1. Ask your children to tell you about the sites they like to visit and what they enjoy doing online.
2. Ask them about how they stay safe online. What tips do they have for you, and where did they learn them? What is OK and not OK to share?
3. Ask them if they know where to go for help, where to find the safety advice, privacy settings and how to report or block on the services they use.
4. Encourage them to help someone! Perhaps they can show you how to do something better online or they might have a friend who would benefit from their help and support.
5. Think about how you each use the internet. What more could you do to use the internet together? Are there activities that you could enjoy as a family?

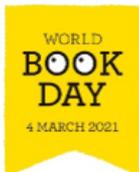

WORLD BOOK DAY

4th March 2021

To celebrate World Book Day, the children will be taking part in some exciting activities around a book during their learning time.

We would like to invite all the children to create a hat or find a costume linked to their favourite book to wear on the day! To make sure we are able to share our hats and costumes with everyone, our Celebration Worship will be Thursday 4th March at 9am. Not only that, we are also having a Book Quiz in the afternoon! We would love for families to play as a team!

More details of the World Book Day events will follow.

Outdoor Learning

"I made it out of Lego and it is for bunnies and hares and other forest creatures."

Henry (3/4A) has built his shelter from an old bit of firewood using a chainsaw! I used the chainsaw and Henry instructed me and he supervised, he stood well back and used all his new safety gear. He had designed a sloped roof and a small door way so told me where to cut. He then groomed Bentley the dog and used his old fur to make a cosy bed inside the log.
