What’s been happening in class:

Year 1 & 2

1/2R have had an awesome week! We have flown to Australia, created some fantastic recounts and instructions on how to make a sandwich in our writing, we’ve been working really hard with our subtraction skills in maths and have had a really good giggle! Our wake and shake dance skills are very impressive and all the adults have been taking part, which has been fantastic.

A huge marshmallow clap to all the children and adults that give 100% to the sessions, have a great weekend!

This week **1/2O** have all things food this week! We have been making sandwiches to help us with our instruction and recount writing! It was so much fun to see everyone joining in and making some delicious bacon, jam, ham, cheese and even marmite sandwiches! (We even got to eat them at the end!) This practical activity has helped us include time connectives, past tense verbs and superlatives in our writing! We have learnt about what a balanced diet looks like and we even used some food items to help us with our subtraction in Maths. A huge well and thank you to all those who have taken part in our live learning sessions and purple mash activities this week! You have made me a super proud teacher!

Caterpillars

This week in caterpillars we have had a super week continuing our learning on Stick Man. We have thought of an alternative use for a stick and have drawn our own cartoon strips as well as writing sentences to support. We have all been maths heroes this week learning about numbers 1-15 and tens and ones well done everyone!! A massive well done to Finley, Evie, Jonny, Olivia and Cassie for uploading their work to Tapestry it is lovely to see what you have been up to!

Year 3 & 4

A big well done to **34S** with brilliant attendance at both home and in school!

We have been focusing on subtraction with our Maths this week, looking at the best way to subtract different three- and four-digit numbers. We have been also making innovations to the class story “Black Dog” in our English work, getting to grips with typing skills at the same time! We looked at the many different ways that advertisers try and persuade people to buy things in our guided reading. We have been looking at our new Geography topic and learning how to make a knowledge organizer in purple mash. Sweet recipes were on the menu in RE as part of our investigation in Sikhism.

Year 3 & 4 continued

Well done 3/4A on a great week of learning! You have been super stars at navigating TEAMS and joining lessons with Mr Summerson and Miss Pepper – I am so proud of you! You have been busy bees learning how to innovate and write your own versions of “Black Dog” and making your way around Purple Mash – learning how to save and find files has been tricky but you have been patient and worked like trojans! We have looked at yummy Sikh Diwali sweet recipes and started our new Geography topic looking at mountains and hills. In maths, you have been beavering away with subtraction - I wonder if you can keep practicing over the weekend with numbers around your home? Keep sending me your amazing work, I love to see it! Here is some Art from Jacob, I’m super impressed! Have a lovely weekend, Miss Andrews.

Another big well-done to **3/4P** on an excellent week! We’ve had a busy week with lots of children joining us on TEAMS and they continued to work hard! We have been writing an innovated story based on The Black Dog. There have been brilliant descriptions of the fear-creature, settings and some action using our key skills! We have also entered into the world of subtraction and learning different efficient methods. There has been fab learning linked to science – we had great fun eating biscuits on Monday to discover the types of teeth in our mouth and their functions! Keep it up, 3/4P! I am super proud of you all!

Year 5

This week Year 5 have been getting stuck into using short division and expanding on their knowledge of key multiplication facts to support them. On Wednesday we completed a live experiment where we watched what happened to raisins in lemonade, we won't spoil it for you. Have a go, it is impressive. Next week we are looking at soluble materials and exploring what happens when some of our everyday materials used for baking are added to warm and cold liquids. We have been working super hard with boosting our confidence with talking on the microphone and supporting others and their technical difficulties which even I am experiencing daily! Well done Year 5!

Year 6

Year 6 are continuing to work really hard and seem to be enjoying their live learning, well done to all of you for your resilience and effort! We have been working on our creative writing this week, producing a short story based on the animation, “Alma.” So far, we have produced some fantastically creepy and suspenseful work!

Safeguarding

Lockdown mental health: Tips for helping your child

Lockdown in the UK has seen an increase in children under 11 seeking counselling according to charities Childline and NSPCC.

Educational Psychologist Abigail Wright has five tips to help parents keep their children’s mental health on track.
